PLATINUM AQUATECH, LTD.
WHEELING, ILLINOIS

Golden Reputation

Freeform, with bluestone coping and natural boulder accents, this pool is equal to the home's stately charm. The interior of the pool is finished in Diamond Brite and the decking is done in random patterned bluestone.

Working exclusively with high-end landscape architects, custom homebuilders and architectural design firms, Platinum Aquatech, Ltd., fashions swimming oases that are among the most spectacular in the Chicago area.

"We are *the* dynamic source for pools in this market," declares James Atlas, president. "Over the years, we have attracted a vastly skilled staff that is enormously experienced in designing and building award-winning and nationally recognized pools," he affirms.

Platinum Aquatech, Ltd., builds every poolscape with the optimum degree of workmanship and customer service. "Our primary clients are the custom homeowners who have the means to transform their desires into reality," states Atlas. "And we fulfill their every wish with superlative results. As we like to say, Platinum Aquatech, Ltd., puts the exclamation point on your home!'"

As a member of Aquatech, a society of elite pool-building professionals whose membership is by invitation only, Platinum Aquatech, Ltd., uses the latest technological advances, state-of-the-art systems and customized waterscapes to craft intelligently designed poolscapes that operate virtually troublefree.

The high standard of support and reliability does not end when the pool is built. Poolcare-Aquatech, Ltd., a sister company, provides maintenance and renovation services, which allow Platinum Aquatech to keep in touch with its customers for the duration of their pool ownership—and beyond.

Platinum Aquatech's reputation has not gone unnoticed by those in the building industry. When custom homebuilders and landscape architects in the Chicago area want a pool built in their backyards, they come to us, Atlas points out. "They know from experience that our pools will not only accent their homes' exteriors, but that the new swimming area will also mirror their personalities. We want every customer to know that for as long as they own them, their pools will remain an enjoyable part of their families' lives." ❖

Not just a wall, the pool's water feature measures 8 ft. high x 44 ft. long and features rosette stone plaques. The deck is crafted in Valder's Wisconsin limestone, while the pool is finished in midnight blue Diamond Brite.

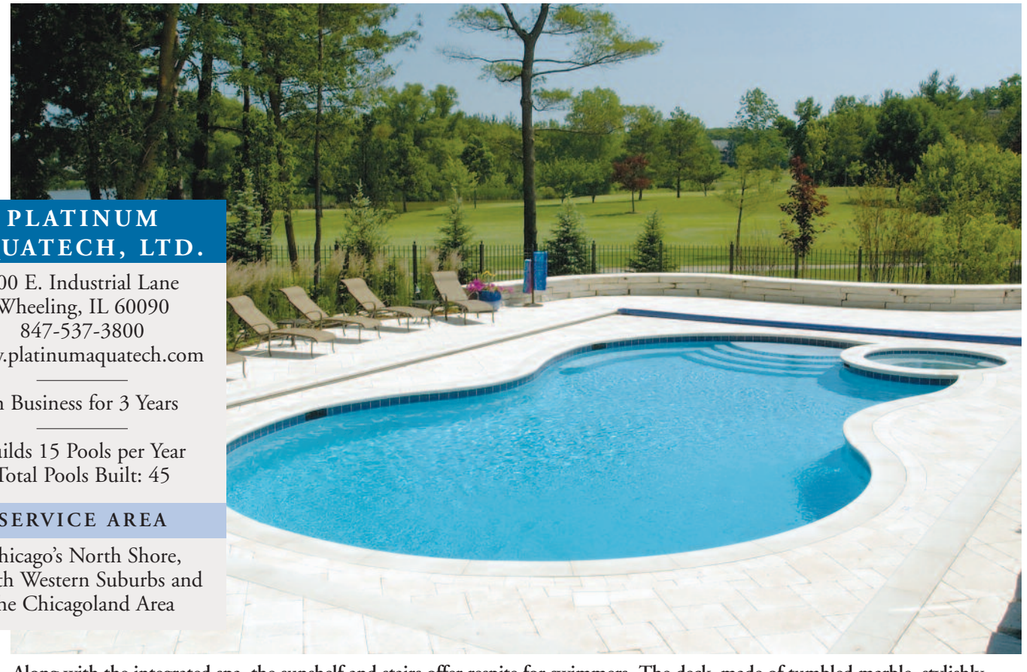
SERVICE AREA

Chicago's North Shore, North Western Suburbs and the Chicagoland Area



Along with the integrated spa, the sunshelf and stairs offer respite for swimmers. The deck, made of tumbled marble, stylishly surrounds the freeform pool, while an automatic pool cover system keeps the whole area safe and easily maintained.
